Notes:

- (a) Decrease due to depreciation of infrastructure costs for North East Line Radio Wave project.
- (b) Reduction due to reclassification of an investment to other receivables.
- (c) Reduction in trade receivables due to different nature of trade and product mix, and in tandem with decrease in turnover.
- (d) The decrease in trade and other payables is mainly due to shorter terms extended by suppliers.
- (e) Due to increase in trust receipts to finance trade payables.
- (f) Increase due to dividends received from subsidiaries.
- (g) Decrease due to settlement of subsidiary dividends declared in 2006 & 2007.

7 Review of Performance

The Group's turnover in 2007 was \$\$364.7 million, a 10.6% decrease from 2006. This was due to weaker sales in the Semiconductors, Building Material & Security Solutions, and Industrial Materials sectors and a significant decline in the US dollar. The profit after tax for the year was \$\$4.3 million compared to \$\$7.2 million in 2006. 2006's profit after tax included a gain of \$\$2.3 million arising from the disposal of non-core associates while 2007's profit after tax included a \$\$2.0 million gain from a return of capital in an investment.

The overall performance of the Industrial Materials sector was better even though the turnover fell by \$\$4.4 million to \$\$205.7 million. Plastics improved its performance both in price and volume while Metals & Minerals' turnover was also boosted by trading in a new product item. Despite the reduction in turnover, the sector turned in an operating profit of \$\$2.1 million for the year, a marked 90.9% improvement over 2006's reported \$\$1.1 million.

The overall performance of the Building Materials & Security Solutions sector also improved despite a lower turnover of \$\$20.9 million in the current reporting year (as compared to 2006's \$\$26.4 million). A loss was reported in 2006 but for 2007, the sector turned in an operating profit of \$\$0.5 million.

The expansion of seafood and coffee businesses saw the growth of the Agri-business & Foods sector's turnover in the region of 43.4% from S\$16.6 million in 2006 to S\$23.8 million in 2007. Included in the Sector's operating profit of S\$1.1 million was a prior year writeback of provision of cost of sales of S\$1.6 million which turned around the operation loss incurred due to high interest and other costs.

Turnover for the Semiconductors' sector was \$\$147.9 million in 2006 and \$\$107.2 million in 2007. This was due mainly to increasing competition in the semiconductors industry. Nevertheless, the sector still generated an operating profit of \$\$1.4 million for the year. For the same period in 2006, the operating profit was \$\$2.8 million.

8 Variance From Prospect Statement

Not applicable

9 Prospects

The Industrial Materials sector should ride on its current momentum to deliver better results. The Building Materials & Security Solutions sector is expected to deliver good results as it has substantial orders in hand and the Agri-business & Foods sector is expected to improve as well. However, the Semiconductors sector is facing an increasingly difficult environment. The Group will strive to strengthen its performance and growth in various sectors in 2008.

The Group is mindful of the current turbulence and uncertainties in the global business environment. It is keeping a close watch on the markets and will constantly seek to improve its business models and focus its strategies to meet the challenges ahead.
