Notes:

- (a) The increase was for an amount due from the disposed subsidiary, which is repayable in half yearly instalments over 2 years.
- (b) The reduction in other investment was due to reclassification of a held-to-maturity note that matured in June 2011 to trade and other receivables as it is pending settlement. The amount was received on 2 August 2011.
- (c) The reduction was mainly due to assets and liabilities of a subsidiary disposed in May 2011.
- (d) The increase in loans and borrowings was due to increase in financing of trade payables.

8 Review of Performance

On 3 May 2011, the Group announced its disposal of 100% interest in Intraco Technology Pte Ltd, a subsidiary reported under the Semiconductor segment. With the disposal, the Group ceased to operate in this segment. Consequently, the results of Intraco Technology are captured under "Discontinued Operation" for the current period and the comparatives have been re-presented accordingly.

At disposal, Intraco Technology reported an operating loss after tax of S\$0.934 million and the Group's loss on disposal was S\$0.587 million including a reclassification of foreign currency translation differences and share option reserves of S\$0.56 million to the profit or loss. The total loss reported for the discontinued operation for the period ended 30 Jun 2011 was S\$1.521 million.

Continuing operations

Revenue

Comparing the first half of 2011 to the same period of 2010, the Group reported an increase in revenue of S\$23.3 million (or 36.8%) to S\$86.6 million for the first half of 2011.

Revenue for the Trading and Others segment increased by \$\$27.6 million (or 51%) to \$\$82.2 million for the first half of 2011. Plastic trading, which represents a significant contribution to this segment has continued its good performance, growing by 72%. The increase was mainly due to more export to Vietnam and Myanmar and an expansion of the supply base.

Revenue from Projects has decreased by S\$4.3 million in the current period from S\$8.8 million in the same period last year. The reduction in revenue for Projects was due to fewer projects secured.

Group's loss before tax

In comparison of the first half of 2011 to the same period in 2010, the Group posted a loss before tax of about S\$2.77 million for the current period against S\$1.31 million profit for the same period last year.

Trading and Others segment registered a profit before tax of S\$0.29 million in the current period, a reduction of S\$0.58 million from same period last year. The decrease was due to lower margins despite a higher volume of export sales for Plastic trading and higher foreign exchange losses reported in the current period.

Projects segment reported a loss before tax of S\$2.13 million for the current period against a profit of S\$0.35 million for same period last year. The loss was mainly due to provision for doubtful debts.

The Group's Other Corporate Expenses was S\$1.23 million in the current period, an increase of S\$0.94 million compared to the same period last year. The increase was mainly due to non-recurring income recorded in the first half of 2010 arising from a gain on disposal of investment of S\$0.5 million and write back of non-operating expenses of S\$0.3 million.

The Group's share of profit from its associates was about S\$0.3 million for the first half of 2011 as compared to S\$0.39 million in the same period last year.

9 Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.

Not applicable

A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

The Group expects the operating environment will continue to be challenging.
